### **What is the KARMA Network?**

Once logged into the KARMA Network, patients can use their smartphones, laptops and other electronic devices to gain secure and unlimited access during their cycles to the following functions and features which may be pertinent to their care.

- As an alternative to waiting for their next appointment, patients can review their daily in-house lab results as they become available.
- Seek advice anytime from the nurses by emailing or texting the clinic via the online Network.
- Pose questions, make suggestions for improvements or voice complaints to any of the KARMA staff. Responses are made within 24 hours.
- Share thoughts, seek and offer support with other patients through a discussion board. (You can create a private username, if you wish).
