

Farewell and Welcome

As of June 2018, KARMA will be sadly saying farewell to 2 core staff members:

- ❖ Judy Renwick, our long-term Registered Nurse, will be retiring after 24 years of commitment to KARMA. As many of you may know, Judy was in charge of the everyday flow of the clinic as well as the Infertility Program. We would like to thank Judy for always being there for our patients and congratulate her on her retirement!
- ❖ Tracy Moore, our long-term lab technologist, has worked for KARMA for 19 years. Tracy has decided to relocate; we wish her all the best in the next steps of her life!

With a few familiar faces leaving KARMA, we are excited to announce some new staff members to our team:

- ❖ Natalie Stratis has taken over the role of IVF Coordinator. Joining her, is Lieanna Bisessar and Holly Fisher, also registered nurses at KARMA. They will work in collaboration to oversee all cycle monitoring, assisting with OR procedures, as well as everyday patient contact in the clinic.
- ❖ Fariba Khosravi, Sam Wake, and Moftah Abumeas are the new faces in the KARMA IVF lab. You will be interacting with them during your fertility journey.
- ❖ Rose Santos will be taking over the role as a lab technologist in the blood lab.

We welcome Gina Knap and Chris Lawson from Steri-Ontario who are here to provide all our medical instrument reprocessing needs!

Though we are sad to see some of our key staff members leave, we are looking forward to seeing our KARMA family grow onwards and upwards!
